BVZ ASIA OFFERS NEW PRODUCTS FOR MARINE APPLICATIONS

BVZ ASIA IS OFFERING new product lines to support the marine industry in addition to its wide assortment of specialty fabrics, hardware and finishing materials for boat tops, covers, tarps, sails, seat cushions, interiors and more.

With the widest distribution network of Sunbrella performance fabrics and associated products in Asia, BVZ Asia has inventories in several major distribution centres: Hong Kong, Guangzhou, Malaysia, Thailand, Vietnam and the Philippines. Clients can order directly from any of the offices, ensuring convenient and reliable delivery.

“We carry the best lines for marine applications including Nautolex Grand Cayman, Ultraclear, Q-Snaps and Perfix,” says BVZ Group General Manager Galen Au. “We are excited about Nautolex Grand Cayman fabrics. They are durable marine upholstery fabrics finished with the easy-to-clean protective PreFixx. Resistant to staining, abrasion, and scuffing, they are suited for both indoor and outdoor marine applications.”

“A remarkably clear vinyl sheet, Ultraclear is a world-leader in clarity, consistency and durability. It is ideal for both internal and external applications and is exclusively available through in Asia through BVZ Asia.”

“For boat owners who are serious about protecting their investment, they can have custom-fit Seaguard Flex fabric covers. Custom-fit boat covers are great for mooring and storage. Having the right cover can prolong the beauty of seats; instrument panels, and ensures durable, worry-free use.”

SMOKE-FREE KENYON RIO GRILL

THE INDOOR/OUTDOOR ELECTRIC Rio Grill is perfect for enjoying at sea and its rounded flange provides a classy look that seamlessly blends in with a yacht's interior.

Designed to enhance the grilling experience, the Rio Grill is safe and easy to use – as well as flare-up and smoke-free. The grate is protected by a medical grade non-stick coating and is easily cleaned with a damp cloth or placed in the dishwasher. The grate imparts characteristic barbeque grill marks and conceals the electric element by resting directly on top of it, thus preventing flare-ups. Most grills have hot and cold zones that don't allow use of the entire grilling surface, but the Rio's heat is uniform across all 155 square inches of the grate, and reaches more than 550 °F.

V-TECHNOLOGY CREATES ROTATING SUN AWNING

JACUZZIS ARE LOCATED almost always on the sun deck of yachts. This means they are open to the elements. A perfect solution for this problem is the V-Technology Rotating Sun Awning. Whatever the position of the sun or the direction of the wind, the Sun Awning can rotate 360 degrees to provide protection. V-Technology also has non-rotating awnings that can be installed behind a couch or a sunbed. Both systems are custom made to the specific dimensions of the Jacuzzi or couch and the space available aboard the yacht. The awning systems can be equipped with lighting or audio, and be controlled by iPhone or iPad. The colour and style of the awning fabric can be customised, too.
